2. educational in nature; and
3. statewide in scope.

B. Differences between Resolutions and New Business Items:

1. Resolutions are compound in structure beginning with background and concluding with a statement of belief, support, and/or opposition.
2. New Business Items are simple in structure calling for a particular action or course of action on a specific issue.
3. Resolutions are ongoing in their application. They remain in effect until the philosophy stated therein is officially changed.
4. New Business Items are terminal in application. Once the specific issue dealt with therein has been resolved, the item no longer continues in effect. Any item of new business that establishes an appointed group will include a statement of the charges and a specific time limit for its existence.
5. Resolutions are statements of belief, positions, or directions for the WEA upon which programs may be developed. They do not request action or the expenditure of funds.
6. New Business Items request action and govern the implementation, operation, and administration of programs. However, they may not directly mandate the expenditure of funds. New Business Items that require budgetary allocations must be referred to the WEA Board for program development and processing through the regular budgetary channels. They become effective only when budgeted.
