NICOLE MCRAE PETTY

FOR

SEA VICE PRESIDENT

I am running for SEA VP because I appreciate the power and importance of our union to make a real difference in the lives and working conditions of educators, students and families. I know first-hand the need to urgently address racial and other inequities within our district. I am a graduate of SPS, a proud parent of SPS alumni, and have worked as a SAEOP, Para and Cert, which gives me insight to the issues facing our members in various roles. I have the lived experience and work experience to help move our union forward. I have a strong work ethic, am a team player and servant leader, and would be honored to have your vote!
